A.C.E.®
AIRCRAFT & COMMERCIAL ENTERPRISES, INC.

UTILITIES & INFRASTRUCTURE SOLUTIONS

IDENTIFICATION & LABELING

Identification products for utility equiptment, cables, electrical systems, equiptment protection, and demanding outdoor environments.

TAPES

Tapes for sealing products engineered for waterproofing, insulation, repair, & environment protection. A.C.E.® also offers self-fusing options with durability for cable splicing.

SAFETY

Safety products designed to support electrical protection, improve workplace safety, and help protect personnel and equipment in demanding utility environments.

CABLE MANAGEMENT

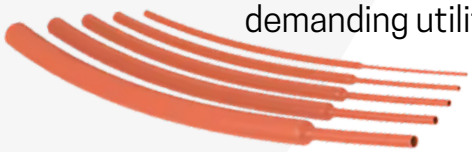
Heavy duty, weather-resistant cable ties designed for securing wire and cable management in demanding outdoor utility applications.

CABLE GRIPS & SWIVELS

Solutions for pulling, replacing, and supporting cable in overhead and underground installations, like Slingco. A.C.E.® has a varied product availability of light to heavy duty options, splice grip, and cable rollers.

HEAT SHRINK/COLD SHRINK

Heat shrink and cold shrink solutions for electrical insulation, cable splicing, sealing, and environmental protection. Designed for reliable performance in demanding utility applications.



PROTECTIVE COVERS

Protective Solutions for utilities, substation, and energized equipment. Available for transformers and other critical components, including custom-fit options that help protect against moisture, contamination, corrosion, and wildlife contact.
